# Summer- Flowering BULBS <sup>Bu</sup>

• SPRING 1953 •

## *Gigantic Holland* **AMARYLLIS**

Dutch growers have produced Amaryllis strains which are now unsurpassed in beauty. Gloriously, the beauty of nature reveals itself in these mighty flowers, which are borne on strong, sturdy stems. It is amazing and exciting to see the flower buds emerge from the large bulbs only a few weeks after planting, and burst into such gigantic, glorious blooms—opening 8 inches across! Often, more flower buds emerge after the first have finished blooming. Your investment in **Royal Dutch Amaryllis** will pay dividends in beauty each year as the original bulbs last many, many years.
